

Sioux County Driveway or Entrance Permit

I, _____ request a driveway or entrance be built or improved on Sioux County's right-of-way (ROW), adjacent to my land or residence.

Description & Location

Agreements / Affected Parties

The driveway or entrance will be built or improved in accordance with the following specifications and conditions.

1. Field driveways are required to be a minimum of 30' in width or culvert length.
2. Residential driveways are required to be a minimum of 36' in width or culvert length.
3. The cost to widen or extend an existing driveway to meet the minimum widths required will be at Sioux County's expense.
4. The cost to widen or extend an existing driveway over the minimum widths required will be at the requester's expense, with a minimum charge of \$250.00.
5. The cost to build a new driveway will be at the requester's expense, with a minimum charge of \$250.00.
6. Concrete or asphalt paved driveways may be allowed up to an existing paved road provided they meet the following requirements:
 - a. A 4% slope must be maintained for a length of 10' from the existing edge of paved roadway.
 - b. The driveway cannot be tied to the existing paved roadway with rebar.
7. Concrete or asphalt paved driveways are not permitted within the ROW on gravel roadways.
8. Safety slopes required by the Iowa DOT on hard surfaced roads for new driveways will be at the owner's expense.
9. For existing driveways, Sioux County will be responsible for installing the correct slopes.
10. The maximum top width of a driveway may not be wider than 60' without special permission from the Sioux County Engineer.
11. Sioux County has the right to reject a driveway or entrance they feel poses a danger to the traveling public or to the landowner.
